

**Washington, DC** – Rep. Linda Sánchez released the following statement after a meeting with President Barack Obama and other Congressional Hispanic Caucus members at the White House today:

“President Obama reaffirmed his pledge to address the concerns and priorities of the Latino community.

“I conveyed to the President that I have strong concerns about the need to reform our broken immigration system sooner rather than later.

Reform must be tough, efficient, and practical.

The more we delay, the worse things will get.

“I am committed to working with the President to lay the groundwork for comprehensive immigration reform and I am optimistic we will pass a bill.”
